Subject: Free Training & Resources: How to Prepare for Coronavirus (COVID-19) and Influenza

Hello Jodi-

I want to take a moment and connect with you directly as the Coronavirus (COVID-19) continues to impact our communities and our organizations. The well-being and safety of the individuals we serve is our top priority, as I'm sure it is for you and your team.

As you prepare and continue to deal with the implications of Coronavirus (COVID-19), Relias wants to directly support your efforts by providing accurate and impactful education on infection prevention and control. We are currently offering a free digital toolkit – [How to Prepare for Coronavirus \(COVID-19\) and Influenza: Training & Resources](#), which contains unlimited access to 7 courses and has additional fact-driven information regarding COVID-19 preparedness and prevention. As the situation evolves, so will our available resources, so please continue to check back for updates.

We encourage you to share this toolkit with colleagues, friends and family to help our extended Relias community combat coronavirus. At Relias, providing these types of resources is core to our mission: to measurably improve the lives of the most vulnerable members of society and those who care for them. I hope you find this to be a beneficial resource during this unique situation. Please let me know if I may be of further service to you in the coming days and weeks.

Thank you for your time,

1
