

The CFLR Professional Training Program  
is holding a training for:

# **SOAR - Science of Addiction and Recovery**

*with Bonnie Carr, LMSW, CASAC*

*This training will take a simple approach to look at addiction as it impacts the brain, its effects on behavior, and how addiction to substances and/or alcohol compares to other chronic illnesses. Addiction is a brain disease that can be treated. Today's science and medicine allows us to see how the brain is affected using brain imaging. We'll explore various brain scans and the basics of what they mean. Seeing the effects, can help us further understand why addiction is so complex, and why recovery is far bigger than putting down the substance. We'll also look at the science to examine its effects on recovery, reoccurrence, treatment and families.*

**August 27th, 2021 9-2:30**  
**Large Training Room**  
**502 Court St, Suite 401**  
**Utica, NY 13502**  
**10 Participant Max**  
**5 hour CASAC/Social Work Credits**  
**\$75.00**
